

Retention of First-time Full and Part-time Students, 2020-2024

Full-time Students that Returned or Completed by Fall

Part-time Students that Returned or Completed by Fall

NOTE

Retention is the percentage of entering first-time degree/certificate-seeking students enrolled as of the 15th day of fall term who either re-enroll (in at least one for-credit class) or successfully complete a program by the 15th day of the following fall. Retention of First-time College students is reported to the Department of Education Integrated Postsecondary Enrollment Data System (IPEDS). In the charts students entered the prior fall.

Student populations excluded from the data: transfer students, high school students, and all other students who were not reported in the cohorts as first-time, degree/certificate seeking students in the fall terms identified in the charts.
